

AlphaCard ID Suite Professional Edition

Easily design, print, and manage ID cards & badges

Powerful ID Card Software

As the premier solution for ID card production and data management, AlphaCard ID Suite combines user-friendly design and automation tools with a sophisticated platform for storing and organizing records for any professional application.

New with AlphaCard ID Suite v11, the software now includes an enhanced card design wizard, improved database functionality & connectivity, high resolution barcodes, and improved language translations.

Professional Edition Features

AlphaCard ID Suite Professional edition is designed for organizations with multiple users who need more advanced database management and design tools. Professional edition also supports multiple database types.

SYSTEM REQUIREMENTS: 32 or 64 bit Microsoft Windows operating system (Windows 7, 8, 10), Explorer 6 or higher, Microsoft .NET framework 4.0 or higher, dual-core processor, 1 GB internal memory (32 bit) or 2 GB internal memory (64 bit), 200 MB free disk space, internet connection.

Highlights

- Microsoft Access & Excel, MS SQL, MySQL & SQLite, Oracle & ODBC/OLE
- Searchable records & database filters to find information
- Create custom drop down menus
- Support for digital ID cameras, signature pads & other devices
- File password protection & user authorization
- Portable USB Key (optional)
